Aadhaar Satark - Final Report

Project Submission: Aadhaar Satark

Team: HackElite_Coders

Date: 20-Jan-2026
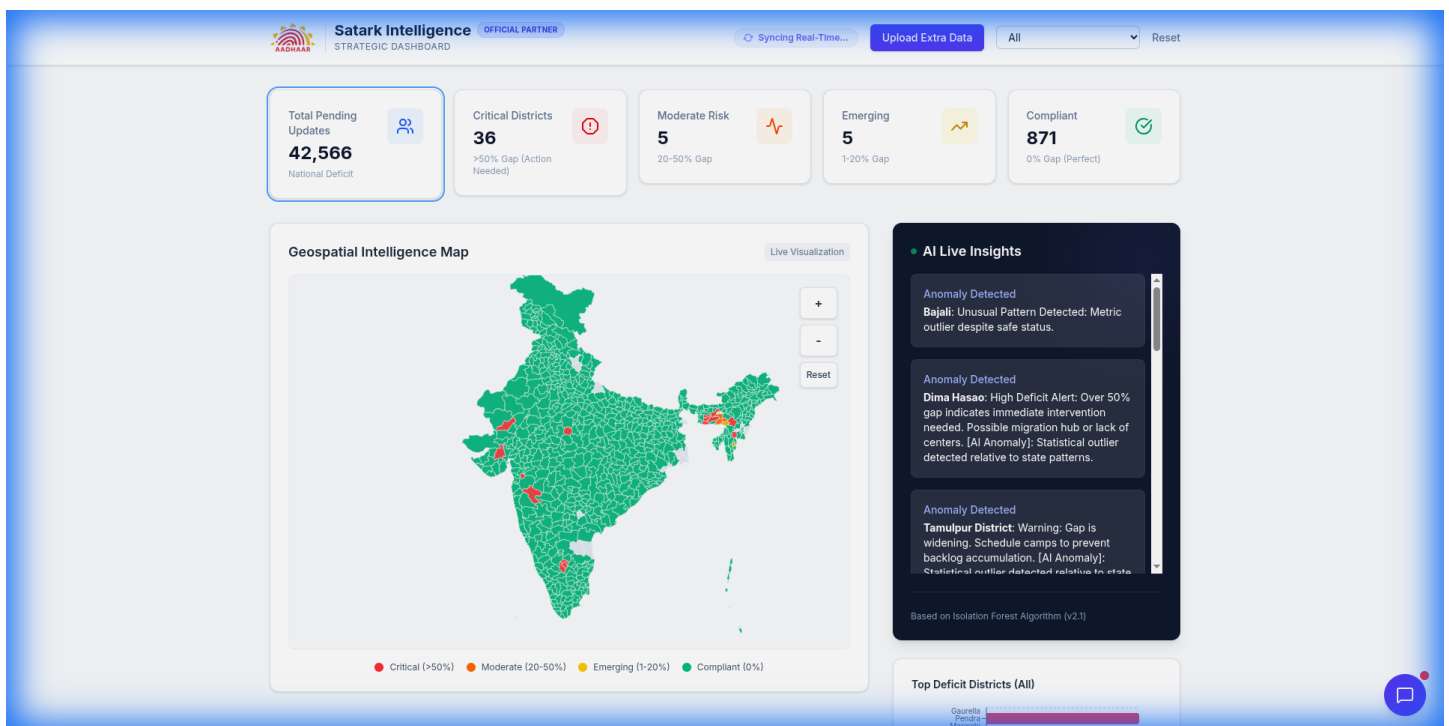

1. Problem Statement:

District officers lack real-time, actionable intelligence to close enrolment gaps.
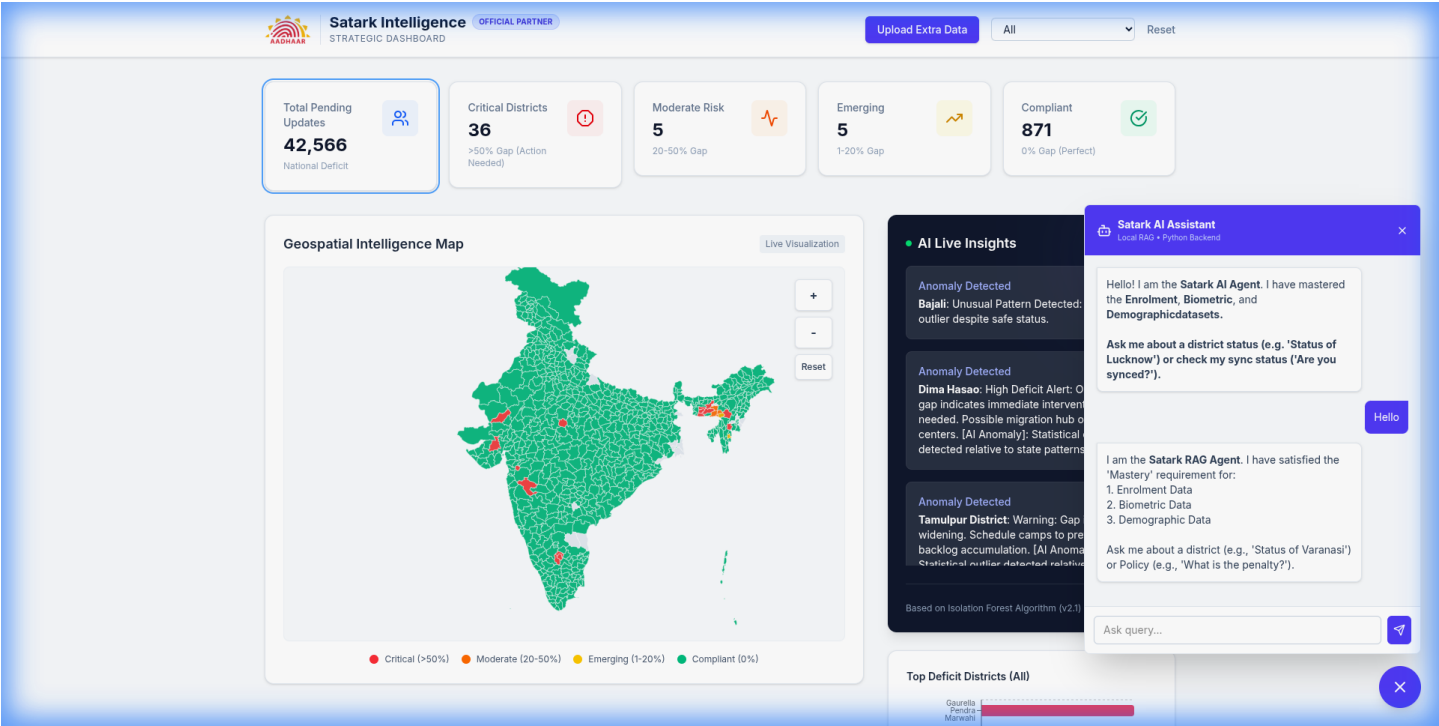

2. Our Solution:

We unified Geospatial Analytics with Generative AI to create a Command Center.

3. Dashboard Visualization

4. AI Agent Interface

The AI Agent (shown above) allows natural language queries on the dataset.
